A great set of Fullblood Charolais Heifers are being offered in this sale plus many young Fullblood cow & calf pairs. Nowhere today can you find this many top Fullblood Charolais cattle offered for sale in one place. These Charolais are offered from breeders whose herds are exclusively Fullbloods. These heifers and young cows have their production life ahead of them, giving you the opportunity to bring new seedstock bloodlines into your existing herd or to build a great herd of Fullblood Charolais from the ground up.

This fancy Fullblood heifer, "506" (top left), a potential show heifer, is one of the six females being offered from one of Jernigans' top producing cow families. Shown at top right, "446" is one of the 10 select Fullblood bred heifers in the sale. She comes out of a strong milk producing family, her grandam is the "560" cow.

"418" is a Fullblood first calf heifer selling with a bull calf at side. She is doing a fantastic job raising her first calf. "418" is a mate to the three heifers we sold in this year's Cowtown Cattle Drive Sale, one of them topping the sale. On her records it's marked "keep, dam is 279," but we are offering *our best* in this sale.
